

UI/UX designer with immense empathy for users and a passion for communication. Background in Fine Art and Illustration provides strong understanding of visual design, including color theory and typography. Skilled in producing carefully designed work with a continued efficiency and sensitivity to deadlines.

UI/UX Projects

Convey Conceptualization, UI Design | CareerFoundry
Feb 2023 - Apr 2023

- Designed low, mid, and high fidelity wireframes for an online responsive bookstore app to provide a dedicated site for foreign language learners to find and purchase materials
- Created a prototype using these wireframes to conduct user testing and edit the design for higher usability

PillowFort Conceptualization, UI/UX Design | CareerFoundry
Feb 2023

- Developed wireframes according to iOS and Material guidelines for a mental health app to warn users of potential triggers when exploring new media
- Conducted competitive analysis to better understand user needs and concerns, particularly regarding mental health
- Administered user testing through prototype of high fidelity wireframes

Avant Garden Conceptualization, UI/UX Design | CareerFoundry
Jan 2023 - Feb 2023

- Outlined wireframes for a location-based recommendation responsive web app for art, nature, and culture
- Conducted competitive analysis to determine useful and extraneous features for the limited user base of arts, culture, and nature tourists
- Crafted user personas based on one-on-one user interviews
- Tested high-fidelity wireframes through a prototype and made adjustments to ensure ease of use

Experience
